## **Statement of Understanding Regarding the Use Of Information Gathered For HEDS**

The Higher Education Data Sharing (HEDS) Consortium is a voluntary not-for-profit organization that assists member institutions in their planning, management, and institutional research, by assembling and sharing a mutually agreed upon and regularly updated set of information, and by providing other services as directed by the Board.

HEDS members have an interest in assuring appropriate confidentiality for the data they provide through Consortium activities. They also have a proprietary interest in that information, since they are assuming the internal costs of compiling it and paying the HEDS Office for its collection, analysis, and distribution. HEDS has an interest in assuring that this information is not made available to third parties without appropriate permission and compensation, and HEDS members conduct their activities with the following understandings:

1. HEDS members agree that they will use data from other institutions received through HEDS only for their own internal planning and management, and not for external publication. For instance, it is appropriate to use such data in presentations to senior administrators or a board, but not for admissions publications or news releases. Even within the institution, HEDS members shall use discretion in how data for other institutions are used. It is usually appropriate to share data fully with senior administrators and trustees, but it may not be appropriate to provide hard copy to faculty committees, and is almost certainly advisable to share data with students only when institutional identities are masked. The HEDS representatives at each institution must assure that anyone to whom data are given understands their confidential character and the ground rules governing their use.
2. Under the "fair play" ground rule, a HEDS institution is entitled to receive information from other members only in those areas and for those years for which it has provided comparable information.
3. While HEDS surveys and reports usually identify data with the institutions from which they came, some HEDS reports will, by request of HEDS members, provide data only in a masked or aggregated form. In those cases, HEDS shall maintain the confidentiality of the institutional data except where specific permission for release is granted by the participating institutions.
4. HEDS explicitly recognizes the value of research and publication in higher education. Accordingly, any HEDS member may undertake and publish studies using HEDS data in professional associations and publications so long as appropriate confidentiality is preserved. At a minimum, participating institutions may not be identified by name without their permission; data shall not be identified by name without specific institutional permission; and HEDS may not be identified as the source of the information without permission of the HEDS Board.

Although the material in this report is based on public information, we remind you that it is available in this format only to member institutions, and, therefore, should be distributed only with the established Consortium guidelines listed above. While HEDS strives for accuracy, we obviously cannot guarantee the accuracy of survey responses nor be responsible for consequential damages resulting from the use of HEDS data.

## **Executive Summary**

This report summarizes information that was collected by the Higher Education Data Sharing Consortium (HEDS) for the fall of 2006. Seventy-seven HEDS member institutions out of 127 full-time member institutions (61%) participated in the Fall 2006 Freshmen Financial Aid Study.

### **Tuition and Fee Discount Rates**

- At the median, the total tuition and fee discount rate, the amount of potential first-year student tuition and fee revenue covered by institutional grant and scholarship aid, for all students was 40.2% in the Fall of 2006 for all participants.

### **Percentage of Students Receiving Any Aid**

- At the median, the total percentage of students receiving aid was 89.4% for all participants.

### **Student Need in 2006**

- The median value of average need of matriculating freshmen with demonstrated need for all participants in 2006 was \$25,364. Participants reported 58.7% of matriculating class demonstrating need.
- Fifty six percent of the matriculating class with need was aided by their institution in 2006.

## Introduction

This report summarizes information that was collected by the Higher Education Data Sharing Consortium (HEDS) in 2006 under the direction of the HEDS Board of Directors and the HEDS Research Advisory Committee (RAC). This report of freshmen financial aid for 2006-07 contains data from 77 institutions received by HEDS through March 15, 2007. Data are based on financial packaging information for admitted and matriculating freshmen.

## Purpose

The objectives of this study are:

- To partition the admitted student pool into distinct subgroups and analyze their yield, need, and packaging information separately; and
- To shed light on at least three critical areas: the success of different packaging strategies with different subgroups, the institutional costs of each strategy within each subgroup, and the needs, behaviors, and distribution of the particular students whom we admit, package, and hope to matriculate.

## Study Changes

The HEDS Freshmen Financial Aid Study has changed in content and look throughout the most recent years.

- Fall 1999: The Research Advisory Committee created a “dashboard” of 26 ratios, labeled Summary Ratios A through Z. These ratios are pulled to the front of the list to help highlight some of the key findings of the study and to provide a reference to ratios embedded in the full report itself.
- Fall 2000: Non-Institutional Dollars were expanded to include separate information for non-institutional grant, work study and loan information. Eleven new ratios were added to the existing 126 to examine this newly reported information. New ratios are indicated as “NewXX” in the ratio listing.
- Fall 2001: The Freshmen Financial Aid Study was shortened considerably, containing only the 26 Summary Ratios (A through Z) which were designated for the Fall 1999 Study. Raw data elements, while available electronically, were not included in the paper report.
- Fall 2002: Based on member feed-back, we have gone back to the “Fall 2000” format including Summary Ratios A through Z, all 126 original financial aid ratios, and the 11 “new” ratios, based on the expanded non-institutional aid categories. Raw data is included in the paper report.
- Fall 2004: Following direction from the RAC and the Enrollment Management Working Committee, the survey underwent considerable revision. Changes included:
  - While grants (and scholarships) are still separated out by institutional vs. non-institutional sources, loans and work study funds were collapsed into a single category.
  - Institutional Athletic Aid is now reported (in a separate column) for those schools who provide such aid.
  - Need categories were updated to reflect current student need.
  - A line has been added to report the number of students with need who were not aided at all.
  - The old section III (applicant pool information) was deleted.
  - Family income categories for students with demonstrated need were updated to capture more detail at higher income levels.
  - Specific types of preferential packaging were added.
  - The listing of specific merit scholarships was removed in favor of a question regarding the percentage of freshmen receiving merit scholarships.

## Disclaimer

Although this material is based on public information, we remind you that it is available in this format only to member institutions, and, therefore, should be distributed only with the established Consortium guidelines. While HEDS strives for accuracy, we obviously cannot guarantee the accuracy of survey responses nor be responsible for consequential damages resulting from the use of HEDS data.

## **Methodology**

### ***Participants***

Seventy-seven HEDS members submitted data to HEDS on the Fall 2006 HEDS Freshmen Financial Aid Survey. Participants included 66 Baccalaureate-Liberal Arts Institutions, 7 Master's I Institutions, 1 School of Business and Management, and 1 Doctoral/Research Intensive University.

### ***Data***

Members of the HEDS Consortium were invited to participate in this study by submitting data based on admitted and matriculating first-time, full-time freshmen. The 2006 questionnaire consists of three parts. The first requests headcounts and financial aid dollar amounts for all admitted first-year students. The second requests data for entering students (matriculating students only) and is a subset of Section I. The third sections request information on packaging policies and practices, and relevant institutional financial parameters. Members were given the option of submitting their data on an Excel spreadsheet, which included previous year data where available. A preprocessor was also available for schools wishing to use student unit-record level data to populate the survey information. Paper surveys were also available, upon request.

NOTE: The terms "first-year student" and "freshmen" are used interchangeably. Transfer students are excluded from this study.

### ***Analysis***

#### ***Null value disclaimer***

Unanswered items were recorded as null (or blank) and zeroes were recorded where zero was provided as the item answer by the respondent. Any ratio that was dependent on an item left blank was reported as null.

#### ***Ratio Definitions***

Ten different ratios are computed in this study for the entire incoming class (see ratios for all students, ratios 1 through 10). These ratios are intermixed with a set of summary ratios for students from the major categories of No Need, Needy and Institutionally Aided, and Needy and Not Institutionally Aided. Taken together, the 10 summary ratios for all students combined with the summary ratios for students in the major need categories form a "dashboard" of 26 key summary ratios at the front of the report.

#### **Ratios for the All Students Table**

1. **Total Admissions Yield:** The ratio of matriculants to admitted students for the entire incoming class.
2. **Average cost after discount for discounted students:** This ratio subtracts the average institutional aid award (discount) from TFRB for only those first-year students receiving a discount. It answers the question, "How deeply did we discount our price for those students to whom we offered a discount".
3. **Average cost for all students:** Subtracts the average institutional aid award (discount) from TFRB for all first-year students (both those who were and those who were not granted a discount).
4. **Average discount as a percentage of TFRB for all students:** This is a ratio of average discount to TFRB. It strikes us as the single most meaningful measure of discounting.
5. **Average merit awards as a percentage of TFRB:** This ratio is the weighted average of those no need students receiving institutional aid divided by an institution's reported TFRB.
6. **Percentage of students receiving a discount:** This ratio displays the proportion of the incoming class who received a discount (institutional aid dollars). It is a good measure of breadth of discounting.
7. **Institutional aid offered to institutional aid accepted:** This ratio determines the amount of institutional aid dollars offered to accepted applicants for each institutional aid dollar actually used by matriculants.
8. **Percentage of students receiving a merit award:** This is the ratio of no-need students receiving institutional aid to all matriculants.

9. **Average cost net of total aid:** This ratio subtracts the average total aid award for all first-year students from the student budget figure reported in section III of the survey. It answers the question, “How much did our freshmen, on average, pay out of pocket for their first year here?”
10. **Tuition & Fee Discount Rate:** This ratio determines the amount of potential first-year student tuition and fee revenue covered by institutional aid.

The ratio definitions below refer to items by their placement on the data matrix. For example, 30A refers to line 30, column A. Three items were drawn from the “Miscellaneous Items” section of the survey and are referenced as follows:

TF:	2006-07 Tuition and Fees (Section A: Miscellaneous Data, Item 2, Line 1)
TFRB:	2006-07 Tuition, Fees, Room, and Board (Section A: Miscellaneous Data, Item 2, Line 2)
BUDGET:	Student Budget (Section A: Miscellaneous Data, Item 2, Line 3)

A note regarding TFRB and BUDGET:

Total cost (student budget) is used for some ratios, and TFRB (tuition, fees, room and board) are used for others. Total cost appears to be the more relevant denominator from the consumer’s point of view: the total cost of a year in college is approximately \$1,500 - \$3,000 more than TFRB and these additional costs must be covered by financial aid or the family’s contribution. TFRB appears to be a more relevant denominator from the institution’s point of view: TFRB is that portion of the total cost that is paid directly to the institution, and which the institution factors into the operating budget as gross or net revenues. Certain ratios attempt to shed light on consumer behavior pertaining to college costs and choice, while other ratios attempt to shed light on institutional revenues and resource commitments to financial aid.

**Important Note Regarding Ratio Definitions:**

Please take a close look at the ratio definitions on the next few pages as many of the ratios were changed in 2004 due to changes made to the 2004 survey instrument. The revised survey remained the same from 2005-2006. In a few cases, ratios were dropped from the study if they could no longer be calculated based on the revised data.

**SUMMARY RATIOS A - Z**

*Yield Ratios*

<b>Summary Code</b>	<b>New ID</b>	<b>Ratio Label</b>	<b>Old Formula (#-alpha combo refers to instrument matrix)</b>	<b>Label changes</b>	<b>New instrument reference (2004 instrument)</b>

## **APPENDIX A: Institutions Known to Have Verified Their Data**

Agnes Scott College	Fairfield University	Trinity University
Babson College	Furman University	Union College
Bentley College	Hope College	University of Richmond
Bryant University	Illinois Wesleyan University	University of Scranton
Colgate University	Ithaca College	Villanova University
College of Wooster	Lawrence University	Washington and Jefferson College
Dickinson College	Luther College	Washington and Lee University
Earlham College	Mount St. Mary's University	

## **APPENDIX B: Institutions Known to Have Revised or Provided New Data After Prelim Date of December 13, 2006**

Agnes Scott College	Gettysburg College	Southwestern University
Allegheny College	Goucher College	St. Olaf College
Augustana College	Guilford College	Stetson University
Babson College	Hartwick College	Swarthmore College
Bentley College	Haverford College	Syracuse University
Bowdoin College	Hendrix College	Trinity University
Bryant University	Hope College	Union College
Carleton College	Illinois Wesleyan University	University of Denver
Centenary College of Louisiana	Ithaca College	University of Portland
Claremont McKenna College	Juniata College	University of Richmond
Colgate University	Lawrence University	University of Scranton
College of Wooster	Loyola College in Maryland	University of the Pacific
Colorado College	Luther College	University of the South
Cornell College	Macalester College	Villanova University
Davidson College	Millsaps College	Wake Forest University
Dickinson College	Mount St. Mary's University	Washington and Jefferson College
Earlham College	Randolph-Macon Woman's College	Washington and Lee University
Fairfield University	Reed College	Wheaton College (IL)
Furman University	Saint Joseph's University	Whittier College
		Wittenberg University

## APPENDIX C: Notes

NAME	COMMENTS
Agnes Scott College	We were not purely need-blind with some or all of our Wait List or Late admits (and international students).
Augustana College	The applicants with need and no aid awarded are mostly due to withdrawal before an aid offer was tendered.
Carleton College	Part E: We participate in the National Merit program and award finalists \$2,000. However, if the finalist has demonstrated need, this award goes to meet need. Other than this, We do not offer any merit-based awards.
College of Wooster	SEOG's are not partitioned.
Colorado College	SEOG grants are not partitioned; the entire amount appears in the non-institutional category.
Furman University	SEOG grants not partitioned.
Grinnell College	SEOG & Federal Work-Study are not separated out by Federal & Institutional Share
Moravian College	SEOG reported includes federal allocation plus institutional match
Scripps College	Non-institutional grants include 100% of SEOG funds.
St. John's College	Entire SEOG listed in external grant category
University of Richmond	We use Federal Methodology, with professional judgment
Washington and Jefferson College	SEOG grant funds in Section I & II reflect the institutional & federal contributions.
Wheaton College (IL)	Aid offered to international students is very limited.

# HEDS Freshmen Financial Aid Survey

## SECTION III Packaging Policies and Institutional Information

### A. Miscellaneous Data

1. Number of matriculants with demonstrated need with family incomes in the following ranges:

\$0 - \$29,999	
\$30,000 - \$59,999	
\$60,000 - \$89,999	
\$90,000 - \$119,999	
\$120,000 - \$149,999	
\$150,000 - \$199,999	
\$200,000 - \$249,999	
\$250,000 or more	

no information	
<b>Total</b>	<b>0</b>
Checksum:	<b>0</b>

2. Institutional data:

2006-07 Tuition and Fees:	
2006-07 Tuition, Fees, Room & Board:	
Student Budget:	

3. What were your self-help expectations for individual freshmen and upperclass students for the 2006-07 academic year? (Note: this does not need to be a mathematical average.)

	Subsidized Loans A	Other Need- Based Loans B	Term-time Job C	Total Self-Help D	Expected Student Summer Earnings E
Freshmen				0	
Sophomores				0	
Juniors				0	
Seniors				0	

# HEDS Freshmen Financial Aid Survey

## B. Preferential Packaging

1. Did your institution engage in differential (e.g., non-standard or preferential) packaging for any of the entering Fall 2006 freshmen with demonstrated need?

(indicate answer with an "X")  
Yes   
No  [\(skip to part C\)](#)

2. If Yes,  
Please select the types of preferential packaging

(indicate answer with an "X")  
academic excellence:   
diversity:   
athletics:   
legacy:

## C. Need-Blind Admissions

1. Did your institution engage in purely need-blind admission for all entering Fall 2006 freshmen (i.e., all early decision, regular, and wait-list admits)?

(indicate answer with an "X")  
Yes  [\(skip to part D\)](#)  
No

Note: Need-blind means here that admissions decision was made without any consideration of the student's financial or financial aid situation.

2. If No, with which groups did you diverge from pure need-blind admissions?

(indicate all that apply with an "X")  
We were not purely need-blind with some or all of our Early Decision admits.   
We were not purely need-blind with some or all of our Regular admits.   
We were not purely need-blind with some or all of our Wait List or Late admits.

# HEDS Freshmen Financial Aid Survey

## D. International Students

1. Does your institution offer financial aid to international students (not U.S. citizens or permanent residents)?  
(indicate answer with an "X")

Yes   
No  [\(skip to part E\)](#)

2. If Yes, do you offer international students need-based aid, merit-based, or both?  
(indicate with an "X")

Need-based aid   
Merit-based aid   
Both

## E. Merit Grants (excluding athletic scholarships)

1. Does your institution have one or more standard/fixed merit scholarship programs in 2006-07?  
(indicate answer with an "X")

Yes   
No

2. What percentage of entering fall 2006 freshmen receive these merit scholarships?  
 (%)

## F. Comments
