Whitman is increasing its commitment to student scholarships, and we ask for your partnership to sustain and build on our progress.

Whitman is committed to increasing the diversity of our student body and improving our ability to meet the financial need of all admitted students. Each year many of our alumni, parents, and friends make an INVESTMENT in the future of our students by supporting scholarship endowment.

The 10th Reunion Scholarship Endowment began when the Class of 2000 celebrated their 10th reunion in 2010. Recognizing the power of cumulative giving over the years, the class and the college decided to start an endowment that would grow with every 10th reunion celebration.

In the decade following its establishment, approximately 670 alumni have contributed to the 10th Reunion Scholarship Endowment, which has increased in value to $123,883. So far, a dozen students have received scholarships from this fund totaling nearly $18,000.

SCHOLARSHIP: YOUR PARTNERSHIP IS KEY

We must make a Whitman education more accessible to talented and committed students from a variety of backgrounds.

More than 77 percent of Whitman students receive scholarship support, with an average scholarship award of $33,462. In recent years, Whitman has steadily increased the total amount of financial aid being offered to students in the incoming class. In the last four years, we’ve increased our scholarship commitment by 34%.

You play a key role in making the aspirations of our current and future students possible through a gift to the 10th Reunion Scholarship Endowment.
