

Kendra Golden assumed the position of Associate Dean for Academic Affairs on July 1, 2013. In this role she assists the Provost in providing strategic leadership on curricular oversight and serves as the College's Accreditation Liaison Officer (ALO). During her career at Whitman she has been a long-standing member of Whitman's Biology Department, where her courses have included Microbiology & Immunology, Cell Biology, and Nutrition. She has previously held the position of Chair of the Biology Department and served as Chair of the Division of Natural Sciences and Mathematics from 2009-2012. In 2006 she was awarded the A.E. Lange Award for Distinguished Science Teaching. Her scholarly interests include phage therapy and insect-pathogen interactions. She obtained her Ph.D. in Biochemistry from the Pennsylvania State University.
