

History -- Louis B. Perry Summer Research Scholarship

Louis B. Perry, Overseer Emeritus, served as the 8th President of Whitman College from 1959 to 1967. The Louis B. Perry Summer Research Scholarship was established in October 1995 to honor his continuing leadership in the Whitman community. Funds for this endowment came from the Hewlett Foundation, the Sherwood Trust, the Horn estate, and several other donors.

The purpose of the Perry Summer Research Scholarship is to encourage faculty to recruit and employ continuing Whitman students to join them as collaborators in their professional scholarship; research undertakings that will often lead to a paper, a book, or a creative work of some type. This will allow for a rich learning opportunity for students to gain first-hand knowledge of the methods and challenges of sustained scholarly work.
