Campus COVID-19 Update

The start of a new school year can be an exciting and nervewracking time, especially considering the ongoing COVID-19 pandemic. At Whitman College, we are committed to ensuring a safe and healthy environment for all faculty, staff, and students. Therefore, we have implemented a number of protocols to help prevent the spread of the virus.

Campus Mask Requirement
All individuals at Whitman, including those who are fully vaccinated, are currently required to wear face masks when they are indoors in group settings or public spaces. Fully vaccinated individuals alone in a private office do not need to wear masks. This requirement is in place to protect the health and safety of all members of the Whitman community.

COVID-19 Vaccination Reporting Form
Any employee or student approved by exemption for campus access must take a COVID-19 test every week. This week, 49 people were tested and there was one positive test. Follow-up has been carried out in accordance with our protocols.

Fall 2021 COVID-19 Protocols
Beginning August 1, our campus vaccination statistics includes incoming first-year and transfer students. Currently, 91% of employees and 93% of students have reported being fully vaccinated. This is a significant increase from last year, and we are pleased to see this progress. A full schedule and instructions will be announced soon.
