Preparing the 2022-2023 Budget

The President’s Budget Advisory Committee began working to develop a budget proposal for the 2022-2023 fiscal year. The committee is charged with giving feedback to the president on the key parameters in developing a budget that reflect Whitman’s top priorities.

Faculty, staff, and students serve on the committee to consider the needs of the entire campus community and attempt to find the right balance between keeping tuition affordable and providing the resources needed to advance our strategic priorities. All feedback is considered as a budget is proposed to the Board of Trustees at their February meeting.

To learn more about the work of the committee, including meeting dates and topics and a committee roster, please see the Budget Advisory Committee Website.

All are encouraged to give feedback and ask questions about this work with any member of the committee.
