Pharmacy (Punny) Program: "Pharmacy (Punny) Program" is a pharmacy program aimed at high school seniors who are interested in exploring the field of pharmacy. The program is designed to provide an overview of the pharmacy profession and to help participants decide if it is the right career path for them.

Tips for Preventing Phishing Emails: As students, we are often targeted by phishing emails. To prevent falling victim to these scams, here are some tips:

1. Never click on links or attachments in unsolicited emails.
2. Be wary of emails that contain urgent requests for personal information.
3. Check the sender's email address to ensure it is legitimate.
4. If you're not sure, forward the email to whitman@whitman.edu or phishy@whitman.edu for verification.
5. Use strong, unique passwords for your accounts.

Pahlke Published on Parenting and Race: Erin Pahlke, associate professor of psychology, has published an article on parent-child communication about race. The study focuses on how parents' messages about race may shape children's racial attitudes.

Erin Pahlke, associate professor of psychology, published an article in the journal of Developmental Science. The study examines how parents' messages about race may shape children's racial attitudes.

Happening Today:

Teaching Hack of the Week: "Teaching Hack of the Week" is a column that highlights innovative teaching strategies. This week, the hack focuses on using Zoom breakout rooms to enhance student engagement. It suggests strategies for creating group discussions and collaborating within the Zoom environment.
