

Find an in-network doctor

Get the most from your benefits

With the Find a Doctor tool, you can search for doctors and hospitals in your plan's network by name or specialty. When you get medical care in-network with doctors and hospitals who work with your health plan, you almost always pay less.

Use the Find a Doctor tool

When you log in at **premera.com**, the Find a Doctor tool will show you all the doctors in your network.

- 1 Log in at **premera.com**. Or open the Premera mobile app.
- 2 Select Find a Doctor.
- 3 Click on the colored tiles to start your search for doctors, dentists, hospitals, and more.

Find a Doctor features

Find a Doctor can help you find the right doctors for you and your family. You can:

- See cost estimates for common procedures based on your plan
- Locate urgent care centers close to your home or current location
- Find doctors in the specialty you need

More information about doctors (when available):

- Average wait time for your appointment
- Ratings and awards
- Whether the doctor is accepting new patients

PSST!

FIND A DOCTOR FINDS MORE THAN DOCTORS

You can also find:

- Dentists
- Other healthcare professionals (nurse practitioners, chiropractors, acupuncturists, naturopaths, social workers, counselors, and more)
- Hospitals
- Urgent care centers
- Pharmacies
- Other care facilities (behavior health, skilled nursing, surgical centers, and more)

Compare medical prices

Be an informed shopper

You likely do some research before shopping for a car or computer to get the best value for your money. In the same way, it's good to do some research before making a healthcare purchase.

Find a Doctor is your go-to research tool to help you take control of your healthcare costs. Use it to compare prices of medical services from doctors and hospitals in your plan's network. Since you share in the costs of your healthcare, this kind of information can help you spend your money wisely.

It pays to be transparent

To research the cost of a treatment, log in to your account and select Estimate Treatment Costs. This syncs the tool with your health plan. Then you get a tailor-made estimate based on your plan's current bills and deductible.

The costs you'll see are estimates. They give you a good idea what you can expect to pay with a specific provider (such as a doctor or hospital). Then you can choose a provider and plan your budget.

Time to go "shopping"

To get started with your research and comparison shopping:

- Log in to your account at **premera.com**
- Select Estimate Treatment Costs
- Click the Find a Cost tile
- Select from a list of common treatments or search for a procedure

You'll see a list of in-network providers in your area who perform this procedure, plus estimated costs for each provider. You'll receive a range of prices—from lowest to highest—you can expect to pay based on your plan's coverage and the amount remaining to meet your deductible.

FIND AN IN-NETWORK DOCTOR, PHARMACY OR FACILITY

To find an in-network provider at home or on the go, log in at **premera.com** and use **Find a Doctor**. You can also use the **Find a Doctor** tool to check whether a pharmacy, urgent care center, or hospital emergency room is in your network.
