

Science

Courses in science do not automatically count toward distribution requirements, unless specifically noted in the course descriptions below.

180 Special Topics in Science

1-4 credits

Special topics in science include interdisciplinary offerings generally not considered in courses offered by specific departments. The material will vary from semester to semester. Any current offerings follow.

180 ST: Scientific Illustration: Enhancing Scientific Notebooks

Fall

H. Chapin

1 credit

Scientific Illustration will emphasize enhancing scientific observation skill through drawing. We will spend time drawing from our collections including birds, plants, insects, fossils, minerals and microscopic specimens. As weather permits, we will take our skills outside to work on accurately capturing our field observations. This course is applicable to all scientific disciplines. Grade: credit/no credit. Distribution area: science.

380 Special Topics in Science

1-4 credits

Special topics in science include interdisciplinary offerings generally not considered in courses offered by specific departments. The material will vary from semester to semester. Any current offerings follow.

391, 392 Independent Study

Fall, Spring

Staff

1-3 credits

Discussion and directed reading on a topic of interest to the individual student. *Prerequisite:* consent of instructor.
